

Meeting with David Lock Associates held on 3rd February 2016

Present: Stuart Copeland, Heather Pugh, Peter Chambers

Introductions

SC explained that the meeting was primarily to discuss Church Farm and but it also covered our progress with the Neighbourhood Plan. It was agreed that we could log the meeting for our NP consultancy record subject to approval of the wording by HP and PC.

Background

Stuart provided the background to the NPWG along with the objectives, the process and the timetable for the Plan.

Discussion followed around the common principles for growth in MK which we both support (strategic planning, grid systems, I before E, etc).

DLA acts on behalf of several clients in MK, some of whom have interests adjacent to our Neighbourhood Plan designated area (but confidential so no names published).

DLA has made representations to Plan:MK in 2015 and will continue to do so as further consultation is undertaken.

DLA is in contact with the East West Rail Consortium.

DLA has presented some longer term options to Wavendon Parish Council.

SC agreed to provide DLA with a copy of our draft NP when ready for pre-submission consultation.

It was further agreed that DLA would offer to present an update to Walton Community Council along the lines of that given to Wavendon PC.
